THE WATERFEATURE LIFESTYLE

I think we can all recall a time in our childhood when the fascination we had with the discovery of water and the life it supports was like exploring another world. Full of creatures and movement that sparked our imagination. We played for days on end in the local creek or dam, we would take off and be back late for dinner full of stories of our latest discoveries.

Water is the conduit to our senses. A waterfall or creek will draw you in to a primordial place in the same way that gazing into a campfire does.

No matter how dry our environment is, we will always want to live near water. A living pond or waterfall is a perfect way to accomplish this and there are many ways to incorporate water in to your environment. Build them well and they give years of joy.

"Living The Water Feature Lifestyle" - what you experience owning and living with a water feature. It's how you interact with it but even more importantly; it's how it interacts with you, right where you live … at home!

Since 2008 we have supplied Australia with the Aquascape Inc. pond and water garden products, equipment and accessories because we believe it to be the best, tried and tested pond equipment in the world - products and technique designed by pond builders for pond builders makes sense to us.

We are also the Australian Distributer for Firestone EPDM pond and dam liners and offer technical advice and onsite installation support by our Firestone trained technician

At Aquascape Supplies Australia no matter what the application, from the smallest water feature or pond to large recreational systems and commercial projects, we have everything you will need including technical support from start to finish.

All products have been tested thoroughly for Australian conditions by our construction teams and we have the back up and field expertise to support you with any sized project.

Aquascape®

The leading water feature manufacturer in North America

Thank you for 29 years of support

Your Paradise. Our Passion.® That's our motto at Aquascape. We strive each and every day to provide the best products and services in the water feature industry.

Whether you are experienced or new to the world of water features, we invite you to explore our comprehensive selection of products designed to build, enhance, and maintain a wide variety of water features, including ponds, waterfalls, and fountains.

From our expansive selection of high-quality products with long-term warranties to our industry-leading training events and experienced Customer Care and Technical Support teams, we are here to ensure your success installing, selling, or enjoying Aquascape water features.

Welcome to Living the Aquascape Lifestyle™!

Greg Wittstock
"The Pond Guy"

LIVING THE AQUASCAPE LIFESTYLE™

At Aquascape, our passion is helping people transform their outdoor living space and how they spend their leisure time. Living the Aquascape Lifestyle™ is about enjoying your own personal retreat with a beautiful water feature. When you live with a pond, waterfall, or fountain, you are drawn outside, away from daily stresses, to interact with your landscape in a variety of ways. Water feature owners enjoy feeding colorful fish, watching birds splash in a waterfall, or listening to the tranquil sounds of moving water. The benefits are plentiful, and Aquascape makes it easier than ever to enjoy the Aquascape Lifestyle.

INTRODUCING THE NEW
Aquascape Smart Control App

Use Your Smartphone To Control Your Aquascape Water Feature

Download the Smart Control App* to
- Control adjustable flow pumps
- Change Aquascape color-changing lights
- Monitor power consumption
- Manage your water feature at anytime from anywhere

WORKS WITH alexa

Download on the App Store

GET IT ON Google Play

Smart Control Plug - The easiest way to control existing water features, allowing you to control lights, pumps, or any other outdoor appliance at anytime from anywhere using the Smart Control App on your smartphone or tablet.

See page 69 for more information.

* App available for download in January 2020

Smart Control Receiver - Makes it easy to connect your adjustable flow pump to the Smart Control App on your smartphone or tablet, providing a variety of wireless control functions, including flow adjustment and customized scheduling.

See page 40 for more information.

NEW

Smart Control Hub for Color-Changing Lights - Control your lights from anywhere using the Smart Control App on your smartphone or tablet, providing a variety of lighting functions, including color selection, cycle, dimming, color themes, and more.

See page 63 for more information.

NEW Aquascape Products

NEW

SLD Adjustable Flow Pond Pumps - Professional-grade, solids-handling, asynchronous pumps that allow you to use your smartphone to control flow rates and customized scheduling.

See page 43 for more information.

Smart Control Conversion Plug - Convert existing AquaSurge® or AquaForce® Adjustable Flow Pumps to be used with our new Smart Control Receiver.

See page 41 for more information.

Faux Log Fish Cave - Provides a great place for your pond fish to hide from predators or take shelter from the sun. This realistic-looking decorative accent adds aesthetic appeal to a pond.

See page 91 for more information.

AquaGarden Mini Pond Kit - Complete pond and water garden kit, containing an integrated plant and waterfall filter, waterfall light, water pump, and media kit.

See page 88 for more information.

Waterfall Spillway 12" / 30cm - Introducing a smaller version of the popular 22"/56cm wide Waterfall Spillway, providing smooth, consistent, leak free waterfalls.

See page 33 for more information.

Deluxe Pond Kits - A medium and large pond kit with all the components you need to build a pond and plenty of extras, like the Pond Powerhead, Faux Driftwood 30" and our adjustable flow pump and color-changing lights now controlled by the Smart Control App.

See page 12 for more information.

Deluxe Pondless® Waterfall Kits - A medium and large Pondless Waterfall Kit with all the components you need to build a waterfall and plenty of extras, like the Faux Driftwood 35" and our adjustable flow pump and color-changing lights now controlled by the Smart Control App.

See page 17 for more information.

AquaSurge® and AquaForce® Adjustable Flow Pumps - Now available with Smart Control Receivers.

See page 41 and 47 for more information.

POND KITS

Transform your outdoor living space with a beautiful ecosystem pond that can be created with a convenient kit. The Aquascape approach to creating backyard pond kits is to provide a complete low-maintenance system that works with Mother Nature for a naturally balanced pond with clean, healthy water. All pond kit components selected work well together and complement the addition of rocks, gravel, fish, and plants. Aquascape offers a variety of pond kit sizes to suit your space.

Pond Kits

The Ecosystem Pond
① Pond Skimmer

Pre-filters water and houses pump, collects debris, and reduces maintenance

② BioFalls® Filter

Provides surface area for beneficial bacteria to colonize and remove excess nutrients from the water

③ Pond Pump

Pumps water from the Pond Skimmer to the BioFalls Filter to create a waterfall

④ Pipe

Directs water from the skimmer to the BioFalls Filter

⑤ Rocks and Gravel (not included)

Protects the liner, naturalizes the pond bottom, and provides surface area for beneficial bacteria to break down excess nutrients

⑥ Pond Liner and Underlayment

Forms the pond's foundation, containing the water and allowing for gases to escape from beneath the pond

⑦ Plants (not included)

Aquatic plants filter pond water, thereby minimizing maintenance and improving water conditions.

⑧ Fish (not included)

Provide nutrients for pond plants and reduce maintenance

DIY Backyard Pond Kits

Aquascape offers three DIY pond kits to create a small, medium, or large pond in your landscape.

| DIY Backyard Pond Kit 1.2m x 1.8m #83005 | DIY Backyard Pond Kit 1.8m x 2.4m #83006 | DIY Backyard Pond Kit 2.4m x 3.3m #83007 |

PONDLESS® WATERFALL KITS

A Pondless® Waterfall is simply a re-circulating waterfall or stream without the presence of a pond. Aquascape Pondless Waterfall Kits work by pumping water contained in a large, in-ground reservoir up and through the Waterfall Spillway, allowing the water to flow back down into the reservoir. This simple recirculation system requires very little maintenance, is easy to install, and ideal for families with young children or pets that love to play in water.

All waterfall kit components selected work well together to complement and enhance your existing landscape. In just one day you can enjoy the soothing sight and sound that a waterfall adds to your yard.
Pondless® Waterfall Kits

The Backyard Waterfall Landscape Fountain Kit
① AquaBasin® 45
  Provides a basin for water to be stored and protects the pump

② Pond Pump
  Pumps water from the water storage area back to the spillway to create a waterfall

③ Pipe
  Directs water from the basin/reservoir to the Waterfall Spillway

④ Rocks and Gravel (not included)
  Naturalizes the waterfall and filters the water

⑤ Liner and Underlayment
  Creates the form of the waterfall and stream

⑥ Waterfall Spillway
  Provides a smooth, flowing waterfall

The Pondless® Waterfall Kit

① Pondless® Waterfall Vault
  Protects pump

② AquaBlox® Water Storage Modules
  Provides water storage

③ Pond Pump
  Pumps water from the underground reservoir to the spillway to create a waterfall

④ Pipe
  Directs water from the basin/reservoir to the Waterfall Spillway

⑤ Rocks and Gravel (not included)
  Naturalizes the waterfall and filters the water

⑥ Liner and Underlayment
  Creates the form of the waterfall stream and holds water in the water storage area

⑦ Waterfall Spillway
  Provides a smooth, flowing waterfall

DIY Backyard Pondless® Waterfall Kits

Aquascape offers two small waterfall kits that are perfect for the DIY customer.

RECREATION PONDS

The non-structural Recreation Ponds are built into the ground by terracing the earth to create your pond's shape and depth, prior to placing the geotextile underlay and Firestone EPDM rubber liner membrane. Once in place the liner is then covered with rock and pebble to create a natural appearance. Each design is unique and can incorporate features such as beach areas, diving rocks, bench seats and decorative spill bowls, all dependent on the size of the area and your budget.

An Aquascape Recreational Pond is designed as a natural Ecosystem to work with mother nature to provide crystal clear water, utilising an Aquascape Wetland Filtration System.

A wetland works just like a biological filter, by creating an area in your pond thick with naturally-filtering plants, as well as rocks and gravel, which provide a surface for bacterial colonisation … nature's perfect filters. So a wetland, while naturally beautiful and pleasing to the eye, is a great filtration method, and will help keep your water looking crystal clear.

Recreation Ponds

Recreation Pond Kit - 7m x 5m x 1.7m
#RECPONDKIT

The Aquascape Recreation Pond Kit comes complete with everything you need to build a beautiful 7m x 5m x 1.7m entry level Recreation Pond. All necessary components are provided in a convenient, all-in-one kit that takes the guesswork out of purchasing individual components. We have allowed for a 2.5m x 3m Wetland Biological Filter, allowing for crystal clear water year round.

Included in kit:

- Firestone liner for both pond and wetland
- Heavy Duty Underlay
- Small AquaBlox for Wetland Filter
- Skimmer 1000
- Pondless Snorkel Vault & Cap
- Pondless Centipede Module
- AquaSurge pumps to run wetland and jets
- Dual Union Check Valves
- Installation Kit including Waterfall Foam and various fittings
- Lighting package
- Aeration Package
- Installation guide

Optional Extras to consider:

- IonGen system - used for controlling String Algae
- Pond Powerhead, transformer and LV Cable
We highly recommend using one of our Certified Aquascape Contractors (CAC's) to build the Recreational Pond for you or at least have them consult and assist on some of the project.

Larger Recreation Ponds are designed and specified on request.

LANDSCAPE FOUNTAIN KITS

Aquascape Landscape Fountain Kits make it easy to add a splash of water to any space in your yard, making them an ideal choice for any space. Available in a variety of options, you're sure to find one that suits your unique style.

Landscape Fountain Kits come with all the necessary components to install a recirculating fountain in just a few hours. A sub-surface basin holds the water and pump, which pushes the water up through the fountain for a stunning display. Install just one fountain, or group several together for a truly unique water feature. Just add decorative rock or mulch to complete your fountain. Then sit back and enjoy the soothing sights and sounds of running water.

The Landscape Fountain Kit
① Fountain
Choose from any one of the nine Aquascape fountain options

② Pond Pump
Pumps water from the underground reservoir through the center of the fountain

③ AquaBasin® 45
Provides a basin for water to be stored and protects the pump

④ Rocks and Gravel (not included)
Disguises the AquaBasin and naturalizes the water feature

⑤ Pipe
Directs water from the basin to the fountain

Landscape Fountain Kits

Aquascape Landscape Fountain Kits come complete with all the materials needed to create a beautiful focal point in any outdoor space, including an AquaBasin® 45, pipe, and the properly-sized pump. The Mongolian Basalt Columns and the Pagoda Fountain Rocks include Pond and Waterfall Foam Sealant.

Pipe Included: Clear Vinyl Tubing

Mongolian Basalt Column 30" Landscape Fountain Kit
#58065
Packaged Weight: 318kg
Dimensions:102cmL x 122cmW x 79cmH
Pump Included: Ultra 800 Pond Pump
Pipe Included: Pre-Cut Kink-Free — 19mm x 1.8m
Includes Pond and Waterfall Foam Sealant

Mongolian Basalt Columns Set of 3 Landscape Fountain Kit
#58089
Packaged Weight: 437kg
Dimensions: 102cmL x 122cm"W x 79cmH
Pump Included: Ultra 2000 Pond Pump
Pipe Included: Pre-Cut Kink-Free — ¾" x 15'
Includes Pond and Waterfall Foam Sealant

Special order only

Pagoda Fountain Rocks Set of 3 Landscape Fountain Kit
#58086
Packaged Weight: 594 lb
Dimensions: 102cmL x 122cmW x 76cmH
Pump Included: Ultra 2000 Pond Pump
Pipe Included: Pre-Cut Kink-Free — 19mm x 4m
Includes Pond and Waterfall Foam Sealant

FILTRATION

The Science Behind Filtration

There are two forms of filtration critical to maintaining a healthy ecosystem pond: mechanical and biological. Through mechanical and biological filtration, ecosystem ponds will process fish waste, uneaten fish food, leaves, and runoff from lawns.

In ecosystem ponds, mechanical filtration is provided by a pond skimmer and biological filtration is provided by a BioFalls® Filter

How to Choose the Right Filter for Your Pond

To keep your pond or water feature looking beautiful, it is important to provide proper filtration. Features and benefits of Aquascape filters are noted in the following pages, making it simple and easy to select the correct filter for your application.

New Ponds

The advantage of choosing the right filter before you get started should not be underestimated. Aquascape takes an ecosystem approach to water gardening. This approach uses a pond skimmer and BioFalls Filter. The skimmer removes leaves and debris from the surface of the pond, optimizing water quality. A BioFalls Filter performs two very important functions; it supports mechanical and biological filtration and provides a great start to any waterfall.

Existing Ponds

In some circumstances it can be challenging to add a skimmer and BioFalls to an existing system. Perhaps the shape or building technique makes it prohibitive. In this situation we recommend the use of an UltraKlean™ Pond Filter, Submersible Pond Filter, Pond Waterfall Filter, or Pond Filter Urn. These filters will retrofit quickly into existing systems and provide efficient mechanical and biolocial filtration.

Pond Skimmer Filters

Pond skimmers are designed to eliminate water quality problems and reduce maintenance by removing debris before it sinks to the bottom of the pond, allowing a pond to be installed anywhere, even beneath trees. Because the skimmer removes debris before it reaches the pump, it acts as a pre-filter, reducing pump maintenance and making pump access quick and easy. All pond skimmers include a limited lifetime warranty.

Pond Skimmer Filters

Features and Benefits of the Signature Series 200 Pond Skimmer

① Custom Lid: Durable lid provides protection of the filter components

② 6" Weir: A floating weir, designed to raise and lower to match the water level in the pond

③ Debris Net: Large volume, debris net makes maintenance easier than ever

④ Optional Filter Brush (#99772): Handles any debris that finds its way past the debris net (sold separately)

⑤ Optional Overflow (#88036): Helps maintain proper water level in an overflow situation (sold separately)

Features and Benefits of the Signature Series 400 and 1000 Pond Skimmers

① Faux-Rock Lid: Natural looking faux-rock lid conceals the filter in the surrounding landscape

② Patented Faceplate: Patented adjustable faceplate allows you to adjust the water level after installation (1000 only)

③ Rigid Debris Basket: Large volume, rigid debris basket makes maintenance easier than ever

④ Professional, Watertight Seals: Injection molded fittings provide professional, watertight seals

⑤ Corrosion-Resistant Hardware: Corrosion-resistant, non-cross-threading hardware stands up to the elements

⑥ Rigid Filter Mat: Rigid filter mat effectively removes smaller sediment and debris

⑦ Rounded Shape: Rounded shape provides maximum strength

⑧ Locking Weir Door: Innovative locking weir door for ease of maintenance

Application
BioFalls® Filters

Aquascape Professional Grade BioFalls® Filters provide the most filtration and highest water flows in the market. Durable, rotationally-molded polyethylene construction ensures maximum strength, and all Signature Series BioFalls Filters include a limited lifetime warranty.

BioFalls® Filters

Features and Benefits of the BioFalls® 1000 Filter
① Filter Media Net: BioFalls Filter Media Net (BioBalls sold separately)

② Biological Filter Mats: Two standard biological filter mats

③ Optional BioBalls Filter Media (#98464): Supports effective biological filtration by providing textured surface area for beneficial bacteria to grow and colonize (BioBalls sold separately)

④ Optional Rock Tray (#98285): Holds rocks, plants, and gravel, naturalizing the filter into the surrounding landscape (Rock Tray sold separately)

Features and Benefits of the BioFalls® 2500 and 6000 Filter

① Reversible Waterfall Lip: Reversible waterfall lip provides the option of using a natural stone spillway

② Removable Rock Tray: Removable rock tray holds rocks, plants, and gravel, helping to naturalize the filter into the landscape

③ Filter Media Net: BioFalls Filter Media Net (BioBalls sold separately)

④ Corrosion-Resistant Hardware: Corrosion-resistant, non-cross-threading hardware stands up to the elements

⑤ Biological Filter Media: Two Poly-Flo ESA biological filter mats provide 50% more surface area than traditional filter mats

⑥ Multiple Plumbing Options: Two bulkhead ports provide multiple plumbing options

⑦ Support Rack: Filter support rack ensures evenly distributed water flow through filter mats and provides structural strength to the walls of the filter

⑧ Circular Shape: Circular shape provides maximum strength and makes it easy to camouflage into the landscape

Application
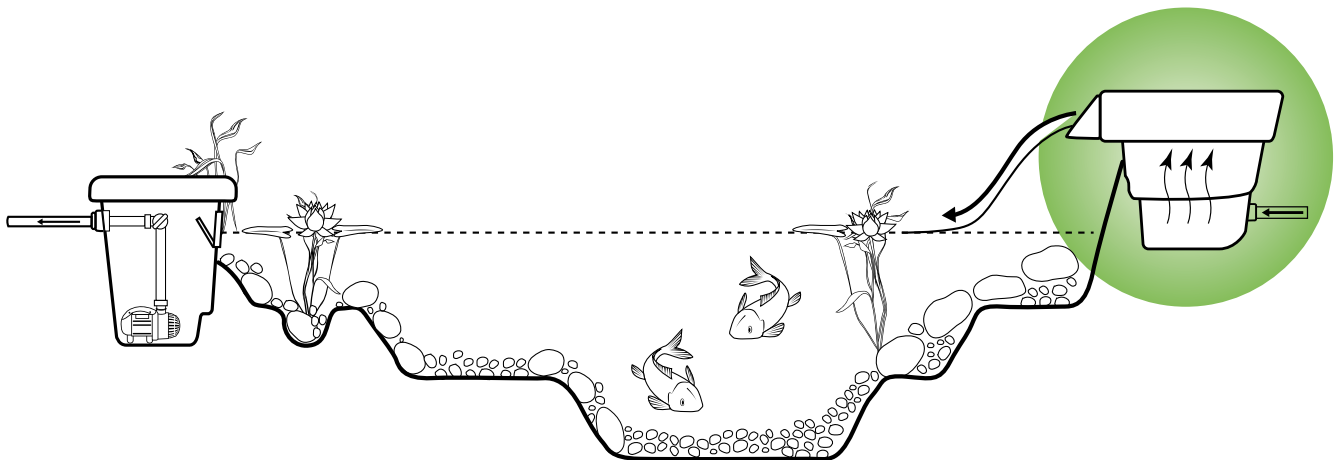

Additional Pond Filters

These filters are ideal for smaller ponds, including preformed ponds or container water gardens. These filters can be easily incorporated into existing ponds, and are ideal for use with Aquascape Ultra, EcoWave®, AquaSurge®, or AquaForce® Pumps.

Pond Waterfall Filter
#77020

Packaged Weight: 5kg

- Provides efficient mechanical and biological filtration for ponds up to 3,800 litres
- Includes rigid filter mat and biological filter media net

Features of the Pond Waterfall Filter

① Durable, circular construction ensures maximum strength

② Filter mat provides ideal mechanical and biological filtration

③ Included filter media net holds biological filter media (filter media sold separately)

④ Filter rack provides support for filter media

⑤ Fitting accepts 25mm, 32mm, and 40mm pipe sizes

Small Pond Filter Urn
#77006

Packaged Weight: 7.3kg
Dimensions: 51cmL x 28cmW x 28cmH

Features of the Pond Filter Urn

① Removable filter lid allows easy access for cleaning

② Decorative filter housing can be easily incorporated into any setting

③ Inlet hose accomodates most small pumps

④ Mechanical filtration removes debris

⑤ Ceramic filtration rings provide bacteria with a large surface area for colonization

Large Pond Filter Urn
#77011

Packaged Weight: 11.3kg
Dimensions: 71cmL x 40cmW x 40cmH

Comparison Chart			
Model	Small Pond Filter Urn	Large Pond Filter Urn	Pond Waterfall Filter

Ceramic Filtration Rings	✓
Filter Dimensions	33cmL x 28cmW x 13cmH
Packaged Weight	5kg
Packaged Dimensions	30cmL x 15cmW x 32.5cmH

Features and Benefits

① **Cage:** Large surface area and small openings prevents large debris from clogging the filter

② **Pre-Filtration Sponge:** Provides efficient mechanical and biological filtration and dramatically reduces pump maintenance

③ **Threaded Intake and Multi-Hose Adapters:** Included adapters make it easy to adapt to most pond pumps with a small piece of kink-free pipe or threaded fitting

④ **Ceramic Filtration Rings:** Provide surface area for beneficial bacteria to colonize, providing efficient biological filtration

BioBalls Biological Filter Media

Aquascape BioBalls provide a textured surface area (19 square inches per BioBall) for beneficial bacteria to colonize and grow, keeping pond water clean, clear, and healthy. BioBalls are easy to clean, long lasting, and lightweight, making them the ideal filtration media for use in biological filters such as BioFalls®.

UltraKlean™ Pond Filters

Aquascape UltraKlean™ Pond Filters provide optimum water quality and crystal clear pond water. The unique sponge-free design minimizes maintenance and maximizes efficient mechanical and biological filtration. The simple-to-use cleaning feature allows the unit to be backwashed in less than five minutes without opening the canister or getting hands dirty. It efficiently traps dirt and debris and integrates easily into new or existing ponds. UltraKlean Pond Filters include a high-output UV clarifier and electronic bulb-saver function that eliminates green water caused by suspended algae.

Features and Benefits

① UV clarifier/sterilizer on/off LED indicator light

② Cleaning indicator light signals when it's time to backwash

③ Electronic ballast ensures optimum wattage and bulb output

④ UV bulb-saver timer feature maximizes bulb life and provides an ideal time to add bacteria

⑤ Backwash valve and discharge shutoff valve make it easy to quickly clean the filter

⑥ Water inlet diffuser evenly distributes debris, maximizing mechanical filtration

⑦ UV clarifier/sterilizer eliminates single-celled algae commonly known as green water

⑧ BioBalls provide efficient biological/mechanical filtration

⑨ Backwash swirl diffuser efficiently churns the water to clean the filter media

⑩ Fittings Include: (6) 25mm, 32mm, 40mm mulit-hose adapers, backwash cap, (8) washers, backflush valve, and threaded adapter

UltraKlean™ Pond Filtration Kits

Aquascape UltraKlean™ Pond Filtration Kits take the guesswork out of selecting the correct pump and filtration combination for any new or existing pond. Three kit sizes are available, ensuring there is a filtration kit for almost any pond.

Application
Waterfall Spillway

The Aquascape Waterfall Spillway is a cost-effective solution to create the starting point of a beautiful waterfall and stream. Use it to create a smooth, consistent, leak-free water flow. Pair multiple Waterfall Spillways together to design larger, more complex waterfall configurations. The durable design makes it easy to disguise by allowing soil, rocks, or logs to be placed directly on top of the unit. It is an excellent choice for designing additional waterfalls and streams onto new or existing ponds that already have a biological filter, or starting waterfalls on Pondless® Waterfall systems, where, due to the absence of fish, biological filters aren't necessary. The Waterfall Spillway can also be built behind hardscape walls to provide a more formal waterfall design.

Waterfall Spillway 12"/30cm
#77023

Waterfall Spillway 22"/56cm
#77000

Specification Chart		
Spillway Width	12" / 30cm	22" / 56cm

Packaged Weight	2kg	4kg
Packaged Dimensions	36cmL x 38cmW x 14cmH	61cmL x 43cmW x 14cmH

Application

Features and Benefits

① Durable design allows boulders, logs, or other creative landscape material to be set directly on top, helping to camouflage the spillway into the surrounding landscape

② Watertight connection using the fitting on the back of the Waterfall Spillway

③ Wide spillway opening handles high flow rates

④ Internal barriers provide a smooth-flowing waterfall
Pondless® Waterfall Vault

The Pondless® Waterfall Vault is the ideal pump vault for use in Pondless Waterfalls, rainwater harvesting systems, and large fountains, effectively protecting the pump and simplifying maintenance. It is simple to install and maintain and fits a wide range of pump sizes and flow rates. It is also perfect for use with the AquaBlox® Water Storage Modules, as Pondless Waterfall Vault Extensions can be used to extend the height for deeper applications. Both the Pondless Waterfall Vault and Extensions are made from durable rotationally-molded polyethylene. The Pondless Waterfall Vault Extensions simply slide onto the Pondless Waterfall Vault to increase its height for applications using AquaBlox Large Water Storage Modules or taller pumps.

Packaged Weight	6.35kg	2.3kg
Packaged Dimensions	59cmL x 46cmW x 57cmH	41cmL x 41cmW x 26cmH

Application

Features and Benefits

① Built-in water level inspection port allows the lid to be buried out of sight

② Extra wide opening provides easy pump access

③ Excellent water circulation through water intakes

④ Large interior fits a wide range of pump sizes
AquaBlox® Water Storage Modules

AquaBlox® Water Storage Modules provide an efficient way to maximize water storage capacity in Pondless® Waterfall reservoirs, rainwater harvesting systems, and permeable paver applications. They allow over 3 times more water storage capacity than gravel and hold approximate 28 litres of water per cubic foot, compared to gravel, which holds approximately 8.3 litres of water per cubic foot. The extra water storage capacity means less time topping off the reservoir due to evaporation and allows for a smaller reservoir footprint. It is also easier to clean and less prone to clogging than traditional gravel basins, and uses less labor to excavate and move gravel. AquaBlox also use less liner and geotextile underlayment

FILTRATION

Snorkel® and Centipede® Wetland Filter

Our patented Snorkel® Vault and Centipede® Module were specifically designed to tackle the common issues that plague large scale water features. They are modular in design, allowing builders and designers the flexibility to expand the system to meet their needs. It is highly effective at removing sediment (suspended solids) from ponds, improves water clarity, and reduces the need for costly and invasive dredging. The filter system works on earth bottom and liner membrane ponds and is easily retrottited onto existing ponds. It also reduces the physical and chemical maintenance that goes along with removing algae.

Large Snorkel® Vault and Cap
#29064
Packaged Weight: 12kg

Large Snorkel® Vault Extension
#29068
Packaged Weight: 4.5kg

Large Centipede® Module
#29065
Packaged Weight: 13kg

The Wetland Filter
① Snorkel® Vault: Allows pump to be dropped in for easy cleaning and has four ports for Large Centipede Module attachment (Large Snorkel Vault Extensions can be used when creating deeper basins.

② Large Centipede® Module: Sits at the lowest point in the filter and ensures maximum water distribution and allows for efficient sediment removal during cleaning

③ AquaBlox®: Provides water storage

④ Rubber Coupling: Creates a water-tight seal

⑤ Flex PVC Piping: Directs water to Centipede Module

⑥ Rocks and Gravel: Naturalizes the wetland area

Constructed Wetland Filter System Requirements

IonGen™ System G2

The IonGen™ System G2 effectively removes algae without the use of traditional liquid chemicals. Designed with a microprocessor that sends a signal to its ion producing probe, the IonGen helps to control algae throughout the entire water feature. It is simple to install, energy-efficient, and compatible with water containing fish and plants. The IonGen is effective at treating ponds up to 100,000 litres and comes complete with electronic control panel, outdoor-rated

IonGen™ System G2
#95012

Packaged Weight: 2.5kg
Pack Dimensions: 46cmL x 12cmW x 36cmH

EPA REGISTRATION #83739-1

Features and Benefits

① Weatherproof control panel

② Easy-to-read digital display

③ Indicator notifies you when the probe needs to be replaced

④ Adjustable ionization level

⑤ Durable quick-connect electrical connections

⑥ Tool-free probe installation

⑦ Angled probe helps deflect debris and reduce clogging

⑧ 50mm threaded inlet and outlet

⑨ Fittings include: (2) 25mm, 32mm, 40mm multi-hose fitting, (2) 50mm PVC slip fitting

---

Application

Option 1: Probe can be installed directly into the water feature plumbing
Option 2: Probe can be placed in an area with good water circulation

OR
IonGen™ Accessories

The following accessories and test kits can be used in conjunction with the IonGen™ System.

IonGen™ G2 Probe Holder
#95077

Packaged Weight: o.2kg
Packaged Dimensions: N/A

- Allows for installation of G2 Probe without flow chamber
- Can be used in a filter, such as a skimmer or a Pondless® Waterfall Vault
- Straps onto any pipe or check valve from 1–4 inches in diameter

IonGen™ Probe for the G2 System
#95016

Packaged Weight: 0.5kg
Pack Dimensions: 8cmL x 5cmW x 15cmH

- For 2nd generation flow chamber
- Includes 1.5m quick-connect cable

IonGen™ Probe for the G1.5 System
#95075

Packaged Weight: 0.5kg
Packaged Dimensions: 7cmL x 7cmW x 12cmH

- For 1st generation PVC tee-style flow chamber and the G2 control panel
- Include a 1.5m quick-connect cable

CU/Copper Test Kit
#96020

Packaged Weight: 0.1kg
Pack Dimensions: 10cmL x 4cmW x 13cmH

- Measures residual copper
- 25 tests per kit

KH/Alkalinity Test Kit
#96019

Packaged Weight: 0.1kg
PackDimensions: 10cmL x 4cmW x 13cmH

- Measures KH/alkilinity
- 60 tests per kit

PUMPS

Selecting the proper submersible water pump is extremely important in order to achieve optimum performance of your pond or water feature. There are three basic types of water pumps available in the water feature industry: direct-drive, asynchronous, and magnetically-driven pumps (also known as mag-drive). The following section will help you make the right selection. If you have questions about pump selection, please visit our Pond Pump Selection Guide at aquascapeinc.com/pond-pumps or contact Aquascape Customer Care.

Direct-Drive
Direct-drive water pumps provide consumers with a high torque, high head height pump option. Direct-drive pumps are generally easier to maintain because of their ability to handle larger solids. It is important to note that these pumps have to be operated within a specific performance curve to optimize lifespan.

Mag-Drive
Mag-drive water pumps are a simple and easy-to-use solution for small water features including decorative fountains and spitters. These pumps are easy to retrofit into existing water features. Mag-drive pumps have only one moving part, making them inexpensive and easy to maintain. Mag-drive pumps are also extremely quiet and energy-efficient.

Asynchronous
Asynchronous water pumps are a hybrid between a direct-drive and mag-drive pump. They have only one moving part, making them less expensive and easy to maintain. This type of pump is extremely energy-efficient, and choosing one over a traditional direct-driven pump often pays for itself quickly in power consumption savings.

Smart Control Receiver

NEW

The Aquascape Smart Control Receiver is required to run Aquascape adjustable flow pond pumps, allowing you to control your pump at anytime from anywhere. The specially designed receiver makes it easy to connect your pump to the Smart Control App on your smartphone or tablet, allowing for a variety of wireless control functions, including flow adjustment and customized scheduling.

- The Smart Control Receiver includes an integrated control panel with digital numeric display and quick and easy flow adjustment.
- Connecting your device is quick and easy, simply plug in your pump, download the Smart Control App, pair the receiver to your device, and enjoy!
Features and Benefits

① WIFI pairing light indicates active connection

② Integrated control panel clearly displays current flow settings

③ Flow adjustment controls allow for quick and easy on-board flow control

④ On/Off controls allow the pump to be turned on or off without a remote or device

⑤ Integrated hang tag provides secure mounting option

⑥ Durable, weather-resistant, injection-molded housing is built to last

⑦ Integrated, weather-proof, quick-connect fitting makes setup quick and easy

⑧ Aquascape Smart Control App allows for a variety of wireless control functions, including flow adjustment and customized scheduling

PUMPS

AquaSurge® Pond Pumps

AquaSurge® Pond Pumps combine energy-efficient performance, high flow rates, and ease of maintenance, making this pump the perfect choice for pond owners. AquaSurge pumps are ideal for use in pond skimmers and Pondless® Waterfall Vaults. The asynchronous motor technology provides high torque, and trouble-free performance, while the oil-free design prevents pond contamination. Made for continuous use, the AquaSurge Pond Pumps will not corrode or rust and can be used vertically or horizontally.

AquaSurge® Pond Pumps

Features and Benefits

① Compact size makes it the perfect pump for pond skimmers

② Built-in cord strain relief protects the cord from being damaged

③ Asynchronous motor technology makes this pump more powerful than traditional magnetically-driven pond pumps

④ Unique ceramic shaft with cooling port prevents the pump from overheating

⑤ Simple and secure threaded disconnect allows the pump to be easily removed from the skimmer for maintenance or winterization

⑥ Integrated rubber feet prevent noise and vibration

⑦ The rotational ball output allows the discharge position to be easily adjusted

⑧ Included pump stand allows for vertical positioning

⑨ Fittings include (2) 25mm, 32mm, 40mm multi-hose fittings, 32mm, 40mm, 50mm multi-hose fitting, 40mm, 50mm multi-hose fitting, 40mm rotational ball output, 40mm female coupler, 40mm male coupler

PUMPS

SLD Adjustable Flow Pond Pumps

NEW

Aquascape SLD Adjustable Flow Pond Pumps are professional-grade, asynchronous, solids-handling pumps ideal for use in ponds, Pondless® Waterfalls, and other water feature applications. SLD Adjustable Flow Pond Pumps provide superior reliability and solids-handling capability. The included Smart Control Receiver makes it easy to connect to the Smart Control App on your smartphone or tablet, allowing for a variety of wireless control functions, including flow adjustment and customized scheduling. The optional Universal Remote for Adjustable Flow Pumps is available separately (#45041) to allow wireless control without the use of a smartphone or tablet.

- Professional-grade, solids-handling pond pump
- Asynchronous motor design provides superior reliability with less maintenance
- Pump flow can be controlled from anywhere with your smartphone or tablet

SLD Adjustable Flow Pond Pumps

Feature and Benefits

① Smart Control Receiver connects to the Smart Control App, allowing you to control the pump with your smartphone or tablet

② Integrated control panel with digital numeric display and quick and easy flow adjustment

③ Threaded 50mm outlet allows for quick and easy installation in a variety of applications

④ Asynchronous motor technology provides superior reliability and longevity

⑤ Semi-vortex impeller design maximizes water flow and reduces maintenance

⑥ Durable pump housing is built to last and will not corrode or rust

⑦ Anti-vortexing shield prevents the pump from drawing air in low-water situations

⑧ Rubber feet prevent noise and vibration while in use

EcoWave® Pond Pumps

EcoWave® Pond Pumps are magnetically-driven (mag-drive) pond and waterfall pumps developed to provide extremely high flow rates. The internal, smart mag-drive motor technology and vortex style impeller allows these pumps to push an incredible amount of water with an electrical efficiency unmatched by other pumps with similar flow rates. EcoWave Pond Pumps are ideal for use in pond skimmers and Pondless® Waterfall Vault applications with lower head heights. Made for continuous use, the EcoWave pumps will not corrode or rust. They are complete with a compact and oil-free design that prevents pond contamination.

Features and Benefits

① Protective filter screen reduces maintenance and prevents damage to the pump

② Durable thermoplastic housing will not corrode or rust

③ High-flow vortex impeller maximizes water flow

④ Smart mag-drive motor provides significant electrical cost savings

⑤ Internal PC board provides high flow rates with unmatched electrical efficiency

⑥ Built-in overload sensor prevents pump damage

⑦ Rubber feet prevent noise and vibration

⑧ Fittings include: (2) 25mm, 32mm, 40mm multi-hose fittings, 40mm rotational ball output, 50mm FPT x 40mm MPT, 40mm female coupler,

EcoWave® 90° Adapter
#88059

Packaged Weight: 0.7kg
Packaged Dimensions: 10cmL x 6.35cmW x 8.9cmH

Allows the EcoWave® to be used with the Low Suction Intake in the AquaBasin® 45.

AquaSurge® Low Suction Intake Attachment
#91117

Packaged Weight: 0.25kg
Packaged Dimensions: 14.6cmL x 11.4cmW x 14.6cmH

Allows pumps to be operated in shallow applications such as the AquaBasin® 45. Compatible with the EcoWave® 2000 & 3000

AquaForce® Solids-Handling Pond Pumps

AquaForce® asynchronous, solids-handling waterfall and filter pumps combine energy-efficient performance, high flow rates, and ease of maintenance, making this pump the ideal choice for discerning pond owners. The AquaForce protective pre-filter cage allows the pump to be placed directly into the pond. AquaForce pumps are able to pump solids up to 6mm inch in diameter, making it ideal for use with external pressure filters or Aquascape waterfall filter systems. The asynchronous motor technology provides high torque, trouble-free performance and is easy to maintain. Its oil-free design prevents pond contamination. The AquaForce can be used as a de-icer pump during cold weather months.

# AquaForce® Solids-Handling Pond Pumps

Feature and Benefits

① Protective pump cage prevents large debris from clogging or damaging pump, reducing maintenance

② Large cage openings allow solids to be easily passed and filtered, preventing the pump from being clogged or damaged

③ Asynchronous motor technology makes this pump more powerful than traditional magnetically-driven pond pumps

④ The simple and secure threaded disconnect allows the pump to be easily removed from the pond for maintenance or winterization without removing hose clamps or plumbing assembly

⑤ The wide, flat shape of the pump cage makes it stable and easy to place in the pond

⑥ The rotational ball output allows the pump discharge position to be easily adjusted, making this pump ideal for all shapes and sizes of ponds

⑦ Fittings include (2) 25mm, 32mm, 40mm multi-hose fittings, 32mm, 40mm, 50mm multi-hose fitting, 40mm, 50mm multi-hose fitting, 40mm rotational ball output, 40mm female coupler, 40mm male coupler

Pond Powerhead

The Aquascape Pond Powerhead is an innovative low voltage circulation pump designed to create water movement in ponds. Either set the powerhead directly in the pond or disguise it using rocks or other materials. Great for solving problems with stagnant water, the Pond Powerhead provides water movement, surface agitation, aeration, and circulation. Its small compact design makes it easy to install in a new or existing water feature and requires no pipe or plumbing. The energy-efficient, low voltage 40-Watt motor can be powered by a standard outdoor 12-volt low voltage transformer (sold separately, see page 69). It includes 7.62m feet quick-connect cable and can be used alone or with additional Pond Powerheads to maximize circulation in larger water features.

Pond Powerhead
#91142
Packaged Weight: 3.5kg
Dimensions: 25cmL x 15cmW x 15cmH

Features of the Pond Powerhead

① Adjustable head allows for directional flow control

② Propeller provides maximum water flow

③ Energy-efficient, 12-volt motor design
④ Durable construction ensures years of trouble-free use

Ultra Water Pumps - 240v & Low Voltage

Ultra Water Pumps are the complete solution for decorative fountains and spitters. These versatile pumps include a three-way or single valve and multi-size hose connection, making them adaptable to almost any pipe or tubing size. The magnetically-driven motor technology is easy to maintain and extremely energy-efficient, saving hundreds of dollars over traditional water pumps. The durable pre-filter cage design protects pump and reduces pump maintenance, and its oil-free design prevents contamination.

AERATION

Every biological process that occurs in ponds is dependent on oxygen. This is especially important in warmer temperatures or at night when plants are not converting sunlight into oxygen. Pond aerators supply dissolved oxygen directly to ponds and other water features, helping all biological processes and resulting in healthier fish and plants. Proper aeration creates a stable pond environment, keeping water healthy, clean, and clear.

Aquascape Supplies Australia provides a complete line of pond aeration supplies, including compressors, diffusers, weighted tubing, and more. The specification chart and following information will help you to make the right product selection.

Pond Aerator Application
Pro Air Pond Aeration Accessories

LIGHTING

Add a new dimension to your water feature by bringing it to life at night. With today's busy lifestyle, it's important to be able to enjoy your pond or landscape at any time of the day. The complete line of Aquascape lighting makes enjoying your garden easy — day or night.

Aquascape LED lighting combines style and simplicity. Our component fixtures include a die-cast metal housing finished with a protective coating, providing a durable finish that will hold up in all weather conditions. Aquascape LED lighting can be used fully submersed or in traditional landscapes. Aquascape LED lights feature permanently sealed watertight fixtures and are backed by a limited full replacement warranty.

Garden and Pond LED Spotlight Kit

The Aquascape Garden and Pond LED Spotlight Kit is perfect for highlighting fountains, lighting up container water gardens, or accenting your ecosystem pond. The natural warm white of the three pre-wired 1-Watt LED lights give a warm glow to your water feature. The 12-volt quick-connect components integrate easily with other Aquascape lights, and are simple and easy to install. The Garden and Pond LED Spotlight Kit include three pre-wired 1-Watt LED lights, one 6-Watt 12V Quick-Connect Transformer, and one automatic on/off Photocell with Digital Timer.
Garden and Pond LED Spotlight Kit
#84030

Packaged Weight: 1.8kg
Packaged Dimensions: 42cmL x 9cmW x 30cmH

Features and Benefits

① Durable, injection molded housing is built to last

② Included ground stake can be used to easily install the light in the landscape

③ Powerful LED with optical lens maximizes light output

④ Included Photocell with Digital Timer automatically controls the lights

LED Fountain Lights

The Aquascape LED Fountain Lights are an excellent way to enhance your decorative fountain. The integrated fitting makes it quick and easy to install into the top of the tubing, and settles perfectly into the core of the fountain. The natural warm color gives off a warm white light, lighting up the water as it spills over the edge. The fountain lights integrate easily with other 12-volt quick-connect components.

Smart Control Hub for Color-Changing Lights

The Aquascape Smart Control Hub for Color-Changing Lights is required to run Aquascape Color-Changing Lights, allowing you to connect to the Smart Control App on your smartphone or tablet and control your lights at anytime from anywhere. The hub is capable of a variety of lighting functions, including color selection, cycle, dimming, color themes, and more.

- Connecting your device is quick and easy, simply plug in your lights, download the Smart Control App, pair the hub to your device, and enjoy!
- Use the astronomical timer to automatically turn lights on and off based on your location.
- Create lighting zones or control separate sets of lights simultaneously by using multiple hubs, further expanding the variety of lighting options.
- Each hub can control up to 150-Watts of Aquascape Color-Changing Lights.
- 12-Volt transformer (not included) is required to power the control hub and lights. Wirelessly control a wide array of color options and settings right from your Android or iPhone.
- Adequate wireless coverage required (2.4HZ supported).

Features and Benefits

① WIFI Pairing Button/Indicator allows for quick and easy connection to your phone or tablet

② Durable, weather-resistant, injection-molded housing is built to last

③ Integrated hang tag provides secure mounting option

④ 5-pin, weather-proof, quick-connect fitting connects to Aquascape Color-Changing Lights

⑤ 2-pin, weather-proof, quick-connect fitting connects to power source (not included)

⑥ Aquascape Smart Control App allows for a variety of wireless control functions, including color selection, cycle, dimming, color themes, and more

Smart Control Hub for Color-Changing Lights

- Turn lights on and off or select between lighting color design options
- 150-Watt lighting capacity
- Requires standard 12-volt transformer (see page 69)

POWER

Aquascape low-voltage products like LED lighting and the Pond Powerhead require 12-volt transformers.

Aquascape offers a variety of power accessories including an array of low-voltage transformers and a Smart Control Plug designed to control your Aquascape products with the Smart Control App on your smartphone or tablet.

Transformers

Aquascape transformers provide an economical solution for operating low-voltage products such as lighting or Pond Powerheads. A variety of power options are available and each transformer includes quick-connect connections for quick and easy installation.

WATER TREATMENTS

Aquascape Water Treatments
Combining science with simplicity, Aquascape makes it easy to maintain a healthy, well-balanced water feature.

Aquascape Water Treatments make dosing simple and affordable. Put away your calculator and enjoy a clean, clear, and healthy ecosystem pond, Pondless® Waterfall, or decorative fountain with the complete line of Aquascape water treatment products

Water Treatment Options
Aquascape has a variety of options to naturally and efficiently balance your pond or waterfall. Select from Simple Solutions, Beneficial Bacteria, Problem Solving, Algae Fighting, Water Conditioners, Sludge Fighting, Fountain Treatments, and Lake and Large Pond Treatments.

Water Treatments

Simple Solutions

Maintain your water feature easily by tackling water quality and clarity issues with this line of easy-to-use water treatments and products. Choose between the Automatic Dosing System or manual pump-top bottles to dispense our specially-formulated water treatments.

Beneficial Bacteria

Aquascape beneficial bacteria water treatments are perfect for weekly application to maintain and establish balanced ecosystems. These treatments keep water clean, clear, and healthy.

Sludge Fighting

Aquascape sludge fighting water treatments eliminate and prevent pond sludge caused by fish waste, plant matter, and other decaying materials. These treatments keep rocks, gravel, and filters clean and provide clean, clear, and healthy water conditions.

Water Conditioners

Aquascape water conditioners help achieve ideal water conditions in ponds and other water features, making water safe for fish and caring for ponds simple and easy.

Algae Fighting

Aquascape algae fighting water treatments are the perfect, easy-to-use solution to control and treat algae.

Problem Solving

Aquascape Problem Solving water treatments quickly resolve a variety of problems, from clearing cloudy water to removing debris from rocks and gravel.

Fountain Treatments

Aquascape Fountain Treatments clean fountain surfaces and eliminate unsightly conditions including scale build-up, debris, and foam.

Lake and Large Pond Treatments

Aquascape Lake and Large Pond Treatments are intended for lake and large pond use only. These formulations are optimized specifically for larger bodies of water.

Simple Solutions

The Automatic Dosing System (ADS) is an electronically-operated dispenser that accurately and consistently applies your choice of specially-formulated water treatments to your water feature. The automatic dosing process eliminates the guesswork and routine associated with adding water treatments manually.

Aquascape offers an Automatic Dosing System for Ponds with three available water treatment options, and an Automatic Dosing System for Fountains with two available water treatment options.

Automatic Dosing System for Ponds
#96030

Packaged Weight: 2.7kg
Packaged Dimensions: 23cmL x 21cmW x 37cmH
- Free water treatment included (Maintain for Ponds)
- Ideal for use with ponds and water gardens

Automatic Dosing System for Fountains
#96031

Packaged Weight: 2.7kg
Packaged Dimensions: 23cmL x 21cmW x 37cmH
- Free water treatment
- Ideal for use with fountains and Pondless® Waterfalls

Features and Benefits

① Water feature size indication – The control panel shows the selected size of your water feature by displaying a blue light next to the number of litres of water. The dosing system dispenses treatment into your water feature based on this number.

② Increase/decrease pond size – Use the plus (+) and minus (–) buttons to select the approximate number of litres in your water feature.

③ X2 button – When pressed once, the 2 button will double the dosage for new ponds, problem ponds, or after a cleaning. When held, the system will enter a priming mode, automatically priming the system for newly installed water treatment pouches.

Replacement Frequency	
Water Feature Size	Approximate Days of Treatment
Up to 2 000 L	166
3 750 L	83
5 750 L	55
7 500 L	42
9 500 L	33
11 500 L	28

Clear for Ponds

Use to clear unsightly water conditions, including cloudy and discolored water

Clear for Ponds uses a concentrated formulation of clarifiers to effectively resolve existing water quality problems, including cloudy or discolored water, and issues with debris attached to rocks and gravel. The formulation also contains a phosphate binder which works to prevent issues with water clarity and debris buildup.

WATER TREATMENTS

Simple Solutions Water Treatments for Ponds

Clean for Ponds
Use to naturally reduce organic sludge and debris

Clean for Ponds uses a powerful blend of heterotrophic bacteria to digest organic waste or sludge caused by uneaten fish food, fish waste, and leaves or debris, naturally cleaning the rocks and gravel. Reducing organic waste keeps ponds and pond filters clean while optimizing water clarity and quality.

Simple Solutions Water Treatments for Fountains

Prevent for Fountains
Use on a daily basis to keep waterfalls and fountains clean and clear

Prevent for Fountains keeps waterfalls and fountains clean and clear, controlling white-scale buildup, foam, stains, and unsightly water conditions without damaging surfaces. The formulation contains a special blend of clarifiers, designed to prevent debris buildup. Prevent for Fountains is not intended for use in water features containing fish or plants.

Clean for Fountains
Use to clear unsightly suspended debris

Clean for Fountains effectively cleans and clarifies waterfalls and fountains with pooling water, plants, or fish, significantly reducing maintenance and improving water quality. The formulation contains a flocculant and powerful phosphate binder to help clear and prevent unsightly suspended debris. Clean for Fountains is safe for use with fish and plants.

Problem Solving (Continued)

QuickFix Pond Gummy

- Rapidly resolves pond problems, including cloudy water
- Innovative gummy makes for quick and easy application
- Targets ammonia, nitrite, and phosphate
- Helps control organic waste and debris

———

#96083

Packaged Weight: 0.11kg

1 package treats 11,340 L

Features and Benefits

① Each gummy sits in a solution containing a special blend of treatments.
- Helps clear unsightly water conditions
- Provides an instantaneous bio-available food source to maximize metabolic activity

② The gummy contains:
- 320 billion viable bacteria cultures specifically selected for their ability to quickly resolve a variety of pond problems
- Free enzymes which trigger digestion to help break down organics
Simply open and pour into your pond.

Comes in a convenient tear-away box!

Professional Grade Water Treatments

Waterfall & Rock Cleaner Professional Grade

- Spot-treats the trouble areas on water features
- Quickly eliminates debris from waterfalls and rocks
- Reduces pond maintenance
- Goes to work instantly

PREDATOR CONTROL

Pond fish can be vulnerable to a variety of predators, including large birds such as the pesky blue heron. Fortunately, Aquascape provides several products to help pond owners prevent predators from harming their prized fish. Our popular ornamental deterrents help keep koi and other pond fish safe.

Special order only

Special order only

Special order only

Floating Alligator Decoy
#93000

Packaged Weight: 1.13kg

Pack Dimensions: 29cmL x 19cmW x 25.4cmH

Add a little fun to your pond while protecting your valuable fish. The natural body movement will deter herons and other predators from visiting your pond.

- Three hinged body parts allow gator to float freely and appear life-like, deterring pond predators
- Detailed in non-fading, no-glare, all-weather paint

Blue Heron Decoy
#81030

Packaged Weight: 1kg

Product Dimensions: 71cmL x 23cmW x 16cmH

Deter herons from coming to your pond by tricking them into thinking another heron is already there.

- Looks life-like
- Quick and easy set-up
- Hand-painted with non-fading, no-glare, all-weather paint
- Surface treated to prevent paint flaking
- Molded from durable, lightweight polymer

Faux Log Fish Cave
#78324

Packaged Weight: 5.2kg

Dimensions: 48cmL x 30cmW x 25.4cmH
Packaged Dimensions: 56cmL x 38cmW x 25.4cmH

- Provides pond fish shelter from predators
- Extremely realistic decorative accent for any size pond

Protective Pond Netting

Aquascape Protective Pond Netting keeps predators out while catching leaves and falling debris before they enter the pond. The reusable netting is easy to install and resists tearing. Each net comes complete with landscape stakes, making it simple and easy to cover your water feature. In addition to keeping leaves and debris from entering the pond, pond netting also protects fish from predators.

Bulk Protective Pond Netting

Aquascape Bulk Protective Pond Netting is ideal for multiple installations or larger ponds. The easy-to-dispense box and the convenient markers located every five feet make it easy to cut to the proper size. Fine 5/16" mesh keeps out smaller debris.

#98562
Packaged Weight: 0.64kg
91cm handle, extends to 175cm
For removing large amounts of debris

Professional Fish Net with Extendable Handle
#98561
Packaged Weight: 0.95kg
56cm diam head, 81cm handle, extends to 175cm
For handling and cradling larger pond fish, preventing them from being snagged in mesh

Professional Grade Pond Net
#50000
Packaged Weight: 0.90kg
For handling large fish and general maintenance

Professional Grade Pond Skimmer Net
#50001
Packaged Weight: 0.90kg
For removing large amounts of debris

Pond Shark Pro
#74005
Packaged Weight: 0.50kg
Extends up to 244cm
Combines three helpful tools into one easy-to-use net for raking, scraping, and collecting algae and debris

AQUATIC PLANT CARE

Aquatic plants are an important part of the water garden. They provide beauty and naturalization with a huge array of plant choices. Most importantly, they help balance the pond's ecosystem and provide valuable biological filtration that removes nitrogen, ammonia, nitrates, and other minerals from pond water. These excess nutrients are often the cause of unsightly water conditions. The end result helps to minimize pond maintenance, leaving more time to enjoy your pond. Without aquatic plants, your pond would not be able to function as a complete ecosystem.

Pond plants can be classified into a few main categories: waterlilies, marginal plants, floating plants, and submerged. Plants can also be put into two basic types known as "tropical" and "hardy." Hardy plants will over-winter in colder climates and tropical plants are more suited to warmer climates, although tropical plants are often used as annuals in colder climate zones.

Aquatic Planters

Aquascape Aquatic Planters are ideal for all pond plants. Made from fine, porous material, the planters allow water in while preventing soil from entering your pond. The flexibility of Aquatic Planters makes it simple to place plants between rocks and other form-fitting areas. Aquatic Planters blend into their surroundings and will not break or crack like traditional plastic planters.

Aquatic Planter 15cm x 15cm
(2-pack)

#98501

Packaged Weight: 0.11kg

Packaged Dimensions: 16.5cmL x 18cmW x 2.5cmH

Packaged Weight: 1kg

Packaged Dimensions: 10cmL x 16cmW x 28cmH

DECORATIVE

Decorative Water Features
Decorative water features include Fire Fountains, container water gardens, bubbling rocks or urns, spitters, and more.

Fire Fountains
Fire Fountains combine the beauty and elegance of fire and flowing water in a durable, self-contained GFRC (glass fiber reinforced concrete) water feature that sets up in minutes.

Container Water Gardens
Container water gardens are great for people who do not have the space or budget for an ecosystem pond, providing a way to add a miniature pond to any location.

Decorative Spitters
Decorative spitters are often used to add a whimsical touch or create a focal point and water movement to existing ponds or container water gardens. Decorative spitters can also be incorporated into traditional landscapes when combined with a small reservoir.

Urns, Bubbling Stones, and More
These water features are typically set atop an underground reservoir known as an AquaBasin®. A water pump contained within the AquaBasin keeps circulating the water over the feature.

Fire Fountains

The Aquascape Fire Fountain provides the beauty and elegance of fire and flowing water in a bowl-shaped GFRC water feature. The self-contained water feature is a complete kit and sets up in minutes. Simply connect the included pump and plumbing, fill with water, and enjoy! The fire feature in the center makes this fountain an ideal focal point or centerpiece to any outdoor setting. Paraffin oil recommended (not included).

Special order only

AquaGarden Mini Pond Kit

Add a small pond and water garden to any outdoor or indoor location with the Aquascape AquaGarden Mini Pond Kit. This complete kit includes everything you need to get started, simply add your favorite plants and watch them grow. Great plant additions to the upper water garden include some houseplants, herbs, marginal plants, and more. The lower pond area holds 19 to 26 litres of water and is a great place for floating plants, a small water lily, or even a few small fish to create a recirculating aquaponics system.

AquaGarden Mini Pond Kit
#78325

Packaged Weight: 8.6kg

Packaged Dimensions: 61cmL x 61cmW x 35.5cmH

Kit Includes:

- AquaGarden Mini Pond
- Plant and waterfall filter
- Waterfall light
- Water pump with low-suction attachment
- Expanded clay grow media
- (2) Decorative gravel

Features and Benefits

① Durable, injection-molded container is lightweight and built to last

② Integrated plant and waterfall filter cleans water and houses plants

③ Pump with low-suction attachment maximizes water usage and circulation

④ Integrated waterfall light illuminates the waterfall

⑤ Expanded clay grow media provides an ideal environment for plant growth

⑥ Decorative gravel in upper waterfall weighs down and disguises the grow media

⑦ Decorative gravel in lower pond beautifies the pond and provides surface area for beneficial bacteria to help keep the water clean

Aquatic Patio Pond Kit

The Aquascape Aquatic Patio Pond Kit makes it easy to add the soothing sounds of water to any location. Use in your garden, on your deck, patio, or balcony, or take it inside and add the beauty of water to your desk, kitchen, or living room.

Aquatic Patio Pond Kit
#78197

Packaged Weight: 4kg

Packaged Dimensions: 38cmL x 48cmW x 27cmH

Kit Includes:

- 40cm Square Textured Gray Slate Patio Pond
- Pouring Bamboo Fountain with pump

Features and Benefits of the AquaBasin® 45 and 30

① Large corner pump access panel fits larger pumps and sits elevated to prevent gravel from falling into the basin

② Pump and valve controls are easy to access for maintenance and adjusting water flow

③ Large, flat deck design makes it easy to set and position fountains

④ Professional-grade, high-density polyethylene construction

⑤ Drainage slots throughout the deck maximize water circulation

⑥ Structural deck cylinders provide endless plumbing and lighting port configurations, while reinforcing basin strength

⑦ Internal plumbing support allows plumbing to sit below the deck as it travels to the fountain(s), making installation simple and keeping plumbing out of sight

* Nominate either back or bottom entry and lip size when ordering

* White, Blue or RGB LED Lighting available

* We recommend the supply of 150mm lip Water Fall unit (or greater), as the LED cover must be accessible for servicing purposes. Warranty on LED lighting will be void if the LED cover is built into the wall.

FIRESTONE LINER, UNDERLAYMENT, AND GEOTEXTILE

Liner, underlayment, and geotextile are the pond's foundation. With a large selection of liners available, it is important to always determine whether the liner you choose is safe for fish that may inhabit the pond.

Firestone Pondgard 1.02mm and Geogard 1.14mm fish-safe EPDM pond liner leads the industry in quality and reliability. Backed by an industry leading 20-year guarantee, Aquascape pond liner is the choice of discerning pond professionals. With superior elongation and lay-flat characteristics, it installs easily with no special tools required. Firestone Pondgard EPDM Liner also has exceptional resistance to solar UV, ozone, and oxidation.

Underlayment is installed before the liner to prevent punctures from rough or rocky ground. Not only does underlayment provide protection for the liner, it also allows the ground to breathe from underneath. The fabric allows the earth's gases to escape from underneath the liner rather than becoming trapped, causing gas bubbles to push the liner up into the pond.

PIPE AND PLUMBING

Flexible PVC Pipe makes installations quick and easy. The main advantage of this high-quality pipe is that it has the durability to be glued into standard schedule 40 PVC fittings.
- Simplifies plumbing layouts and installations
- Sun, ozone, and mildew resistant—NOTE: we do not recommend placing flexible PVC pipe in continuous sunlight
- Made in the USA

Kink-Free Pipe is an excellent choice for quick and easy installations without the use of PVC cement. This high quality pipe is extremely flexible and resistant to crimping or collapsing around tight curves. Kink-Free Pipe works best when used with traditional stainless steel hose clamps and barbed fittings.
- Simplifies plumbing layouts and installations
- Internal spiral prevents crushing and smooth inner wall reduces friction and maximizes flow
- Made in Australia

Plumbing Materials provided by Aquascape include a complete selection of check valves, automatic water fill valves, and a variety of accessories, making it easy to complete any water feature with high quality plumbing products.
- Simplifies maintenance and installation
- Durable, professional quality products
- Easy to adapt to a variety of pipe types and sizes

Check Valves and Flow Control Valves

Dual Union Check Valve 2.0
#48026

Packaged Weight: 1.7kg

The Dual Union Check Valve 2.0 provides a professional pump and plumbing connection inside skimmer filter systems, as well as Pondless® Waterfall Vaults. The innovative reversible fittings allow for universal application. The Dual Union Check Valve 2.0 prevents water backflow when the pump is not operating, while the dual-union, tool-free design makes maintenance quick and easy. The height is extendable for larger filters and pumps.

Features and Benefits

① Angled, swing-style valve effectively prevents back flow

② Heavy-duty flapper ensures longevity

③ Dual-union connections simplify pump and filter maintenance

Reversible Fittings Eliminate Guesswork

FITTINGS INCLUDED
(2) Reversible 50mm MPT x 50mm Slip, (1) Reversible 40mm FPT x 50mm Slip

Dual Union 3" CVA Check Valve
#29098

Packaged Weight: 3.4kg

The Dual Union 3" CVA Check Valve is ideal for larger installations that use large pumps and filters. Heavy-duty, dual-union design ensures years of trouble-free use.

2-Way Flow Control Valve
#88005

Packaged Weight: 0.70kg

3-Way Controlled Barbed Valve
#88026

Packaged Weight: 0.40kg

Water Fill Valves

Aquascape Water Fill Valves automatically add water to features when needed. They reduce the time-consuming maintenance of manually filling water features with a hose. Water Fill Valves also help protect the pump from running dry and eliminate large water chemistry swings (including chlorine/chloramine levels) that occur during manual top-offs.

Compact Water Fill Valve
#88006
Packaged Weight: 0.3kg

- Up to 5.5 litres per minute flow rate at a working pressure of 0-100 PSI
- Small size allows it to fit into any skimmer filter, Pondless® Waterfall Vault, or decorative water feature application
- Includes fittings to connect to a standard garden hose with a 6mm poly-pipe (pipe sold separately)

Water Fill Valve 200
#29272
Packaged Weight: .45kg

- Up to 11 litres per minute flow rate at a working pressure of 0-100 PSI
- Reliable mechanical arm-style fill valve
- Brass hardware with poly float
- Includes fittings to connect to 13mm poly-pipe or 13mm pvc pipe (pipe sold separately)

Special order only

Hudson Water Fill Valve
#29469
Packaged Weight: 0.56kg

- Up to 5.5 litres per minute flow rate at working pressure of 8-65 PSI
- Works great in Signature Series Pond Skimmers and Pondless® Waterfall Vault
- Mounting plate allows 10cm setting adjustments
- Includes quick-connect fitting for 6mm poly pipe
- Can also be used with 13mm PVC by using the Fill Valve Irrigation Conversion Kit (Item #01008)

INSTALLATION TOOLS

Whether you are a do-it-yourselfer or professional water feature contractor, Aquascape has all the pieces and parts you need for successful installation or repair. Installation tools, spare parts, and accessories are available individually or as part of a kit. Installation tools located within this section of the catalog include the following.

- Foam
- Foam Guns
- Patches
- Silicone
- Glue
- Firestone accessories

Installation Tools

Economy Foam Gun Applicator
#54003

Packaged Weight: 0.68kg

This lower-priced foam gun provides an attractive price point so that all contractors, no matter how many features they build, can afford to add a foam gun to their pond-building tool kit. To be used with Professional Black Waterfall Foam.

Special order only

Professional Foam Gun Applicator
#29268

Packaged Weight: 0.56kg

Aquascape Professional Foam Gun Applicator is designed to create an air and moisture-tight seal between the gun and the can, allowing for maximum foam yield and minimal waste. To be used with Professional Black Waterfall Foam.

Professional Foam Gun Kit
#22013

Packaged Weight: 6.1kg

Kit includes:
- Case
- Professional Black Waterfall Foam (3)
- Professional Foam Gun Applicator
- Professional Foam Gun Cleaner

Professional Black Waterfall Foam
#30096

Packaged Weight: 0.90kg

24 oz. can of expandable Professional Black Waterfall Foam. Equivalent to Pond and Waterfall Foam Sealant. To be used with foam guns (sold separately).

Professional Foam Gun Cleaner
#22011

Packaged Weight: 0.56kg

A handy cleaner to flush the foam gun clean if it is not working properly. It will also remove uncured foam.

Pond and Waterfall Foam Sealant
#21053

Packaged Weight: 0.56kg

No gun applicator needed! Easy to use for the beginner or do-it-yourselfer. Convenient and economical for a small project or the quick touch-up on a larger project. Also sold as part of our Installation Kit (#22008).
